Subject: Extending a helping hand to overcome the tragic situation in Jammu & Kashmir via provision of accomodation for children

Respected Sir,

I write to you on behalf of Sangam, a social awareness program which works for Girl child Care & Development. With Sangam we seek to provide a holistic development environment to the kids of the country that are the future citizens of the nation.

Through our Sangam initiative, we also seek to transform India into a Medical Hub and a Self-employment generation hub that envisages an all-round development of the nation and society at large. With Sangam, we seek to provide a better future to the children and make them self-reliant in their pursuit of self-development.

Within the framework of Sangam, our organisation has also been running an orphanage named- 'The Sweet Home' for more than two decades now where our cause has received the support of more than 1100 ashrams across all states of India for helping children in need. We work towards creating awareness in the society towards welfare of children and strive to accumulate efforts of different entities towards enabling a better life for these children.

Our orphanage- "The Sweet Home" operates under the guidelines of JJ Act, 2000 as legislated by the Government of India and we have a capacity of accommodating upto 200 children.

Sir, we are currently witnessing a natural disaster of the highest proportions in Jammu & Kashmir, where thousands of residents have been displaced from their homes by the massive floods.

In the current tragic situation, we would like to offer our services for overcoming the problems faced by our brothers and sisters in the state, especially the children. Our Sweet Home Orphanage has a capacity of accommodating upto 200 children in times of emergency in its premises at Najafgarh, Delhi and would be honoured to offer some help for the calamity stricken children of Srinagar.

As the Founder President of Sangam and Sweet Home, I wish to offer the infrastructure & services of both our organisation and orphanage to take care of children stricken by this grave calamity.

Please find our pledge & support to safeguard the lives of our calamity- stricken brethren in Jammu & Kashmir.

Jai Hind.

Yours Sincerely:

Avinash Jain

Founder & President, SANGAM
